👤 PROFILE

I'm a code-driven problem solver with a builder's mindset, blending curiosity with creativity. Whether it's scripting automation at 2 AM or reverse-engineering open-source projects just for fun, I thrive on turning abstract tech concepts into functional, real-world solutions. Currently diving deep into full-stack development, AI integration, and systems architecture —one bug at a time. Seeking an internship where I can contribute bold ideas, ship clean code, and grow through engineering challenges no textbook ever covered.

📁 PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Freewilltechnologies.in

05/2025 – Present | Tamilnadu, India

- Developed and Tested a Finance and GameHub Website using HTML, CSS, JavaScript and Python
- Developed, Tested and Deployed a Resume Builder Web Application using React, Tailwind CSS, JavaScript and PHP

📁 PROJECTS

CCTV Camera

Esp32-Cam

02/2025 – Present

Developed a low-cost, Wi-Fi enabled surveillance solution using ESP32-CAM for real-time image and video streaming. Implemented motion detection, cloud integration, and remote monitoring via a custom web server. Optimized camera performance by configuring OV2640 sensor settings and reducing latency in data transfer.
